

Dear valued customers,

Zeon Corporation is excited to announce a corporate restructuring plan to support our continued commitment to improving customer service and ensuring the flexibility required to best serve your needs. For the geographic growth and diversification of services in all facets of our corporate family, Zeon Specialty Materials, Inc. (ZSM) has been established as a wholly owned subsidiary of Zeon Corporation. This reorganization will allow us to better leverage and align the strengths and diversity of our entire corporate group.

The formation of ZSM, based in the heart of Silicon Valley (San Jose, CA), further strengthens our position in the US market and will provide greater efficiencies. The following products have been transferred to ZSM from Zeon Chemicals, L.P.:

ZEONEX®
ZEONOR®
ZeonorFilm™
ZEP series
ZPN series
ZEOCOAT
ZEORORA®58
BM series

ZSM was established on August 1, 2017. To ensure a seamless transition period, the operations for the above products will remain in Zeon Chemicals, L.P. until October 31, 2017. At a later date, we will inform you via a separate letter, when the order processing and fulfilment will be transferred to ZSM. If any product information is desired, please contact the corresponding sales representatives of ZSM listed below:
